

# HEAMAR COMPANY

## CUTTERS AND PLIERS

[www.heamar.co.uk](http://www.heamar.co.uk)

- Both Lindstrom and Tronex are available to purchase from Heamar. These are two of the best quality cutters and pliers on the market today.
- Lindstrom's computer controlled machine grinding guarantees edge angle accuracy and contact which increases tool reliability and consistency.
- All Tronex cutters and pliers have a double cushioned grip and steel handles that extend the entire length.
- Every cutter is tested individually before dispatch. Each cut crisply at the very tip and cut along the entire length of the cutting edges.
- Undesirable plier joint movement is held to a minimum, ensuring extremely precise alignment of the jaws, even at the extreme tip.
- The Lindstrom RX grip is slightly rounded and wide, creating excellent surface distribution and contact. The Tronex ergonomic cutters and pliers have handles that extend the full length of your palm to ensure use of the full hand.

### Oval Head Cutters

LINDSTROM PART NUMBER	TRONEX PART NUMBER	LINDSTROM ERGO PART NUMBER	TRONEX ERGO PART NUMBER	CUTTING CAPACITY (MM)	FINISH
